

DatatypeSourceInterface

```
classDiagram
    class DatatypeSourceInterface
    class MockDatatypeSource
    class SimpleSource
    MockDatatypeSource --|> DatatypeSourceInterface
    SimpleSource --|> DatatypeSourceInterface
```

The diagram illustrates a class hierarchy. At the top is a box labeled 'DatatypeSourceInterface'. Below it are two boxes: 'MockDatatypeSource' on the left and 'SimpleSource' on the right. A horizontal line connects the two bottom boxes, with a vertical line extending upwards from its center to the bottom edge of the 'DatatypeSourceInterface' box. An arrowhead points upwards from this vertical line to the bottom edge of the 'DatatypeSourceInterface' box, indicating that both 'MockDatatypeSource' and 'SimpleSource' inherit from or implement 'DatatypeSourceInterface'.
