Grassmannian Atlas: A General Framework for Exploring Linear Projections of High-Dimensional Data

Shusen Liu1, Peer-Timo Bremer2, Jayaraman J. Thiagarajan2, Bei Wang1, Brian Summa3, and Valerio Pascucci1.
Scientific Computing & Imaging Institute, University of Utah1, Lawrence Livermore National Laboratory2, Tulane University3

Summarize the function of quality measure in the space of all 2D linear subspaces (Grassmannian) [1]

Computation Pipeline

User Interface and Result
