

# The NIH/NSF Visualization Research Challenges

Jarke J. van Wijk

Technische Universiteit Eindhoven

# What I like in the report

There's more than algorithms & pictures

Let's shift focus to:

- Collaboration with domain experts
- Integration with other techniques
- Perception, cognition, exploration

# The report in one phrase

- The report sets out the right directions for our field
- The report reflects our opinions
- The organizers have inspired us to rethink what we're doing and what we should do
  - *Many thanks, Terry & Chris!*
- Our field is healthy and vital!

# What can be improved?

What have 18 years of Vis brought us?

Success stories are needed!

Spectacular and quantitative results:

- *Thanks to vis I won a Nobelprize*
- *Thanks to vis I save 10 lives per day*
- *Thanks to vis I have saved \$100,000,000*

Where are they?!?!?
