CS 1060   **Bonus Activity #2**   **Spring 2016**

Due March 1, 2016 at the start of class

This is a bonus project, with a total of 10 possible points.

You are asked to write a Python program that creates innovative art work.

You will get 2.5 points for originality, another 2.5 points for using recursion in your program.

Your program has to be original in the sense that it is not similar to any Python art program found online.

The best Python art work voted by the class will get another 5 points, and will be featured in the class T-shirt.
