

**Workshop within SPP1665/2:**

**Kick-off meeting of the troika Münster/Oldenburg/Hamburg**

**Time:**

**April 06, 2017**

**Location:**

**Seminar-room of the Institute for Biomagnetism and  
Biosignalanalysis, Malmedyweg 15, 48149 Münster**

**Program:**

**For each project, we plan 90 min and the PI and his student can  
decide how much is spend on presentation and how much on  
discussion!**

**11:00-12:30 Experimental and technical setups for the dissertation  
of Asad Khan within SPP1665/2: Individualized and optimized multi-  
electrode transcranial direct current stimulation of the  
somatosensory cortex**

Carsten Wolters

Institute for Biomagnetism and Biosignalanalysis,  
University of Münster

**12:30-14:00 Lunch break**

**14:00-15:30 Experimental and technical setups for the PostDoc work  
of Annika Notbohm within SPP1665/2: Individualized closed-loop  
tACS.**

Christoph Herrmann

University of Oldenburg

**15:30-16:00 Coffee break**

**16:00-17:30 Experimental and technical setups for the dissertation  
work of Jan-Ole Radecke within SPP1665/2: Modulation of spatial  
and temporal attention by tACS in humans**

Till Schneider

University of Hamburg

**18:30- Dinner in “Altes Gasthaus Leve”**
